

Agreement № A _____

On Purchase of Option on Ordinary Shares of Infodrom PLC;

This document is **irrevocable** Agreement on Purchase of Option on Ordinary Shares of Infodrom Public Company LTD (further Infodrom PLC), incorporated 24 May 2012 in Republic of Cyprus, registration number HE 306856.

The Registered Office of Infodrom PLC is situated at: Agias Fylaxeous 36, 3rd floor, office 3, 3025, Limassol, Cyprus.

All documents and description of targets of Infodrom PLC may be found on site "www.InfoPolis.Media", the specified name of this domain just illustrates business motto of Company which sounds as "**Information Road leads into the Information City**".

Brief Memorandum of Infodrom PLC

The main objective of the Infodrom PLC is attracting investments for implementation of the Project of creation of Uniform Information Space (UIS) in the field of pharmacy throughout the territory of the Russian Federation and CIS countries. The implementation of the UIS Project is quite achievable taking into account the 25 years experience, knowledge, business connections and financial resources of the founders of the Corporation (they are the owners of the Russian company "Infodrom Media Center" to which belong the registered trademark "Cross-Market System" and a number of other registered software products required for the implementation of the Project).

The implementation of a large Project is carried out through the implementation of several support projects, currently there are already several, due to the impossibility of disclosing all the details of the projects, we will focus on those that can be directly useful to the Republic of Cyprus:

The Headquarters Project. The headquarters of the Corporation is located in the Republic of Cyprus, in the area of Paphos Aphrodite Hills, complex Apollo Heights, where the shareholders of the Corporation jointly own real estate (10 apartments) with a total investment of about 3.5 million Euros. It is planned to expand headquarters up to 64 apartments in the framework of the project.

The Bonus Program for Manufacturers Project. This BPM Project is designed to help pharmaceutical manufacturers to accelerate the promotion of new drugs in the Russian market. Bonus points accrued to pharmacy institutions can be used for year-round rest of pharmacy staff on the Corporation's real estate; theoretically, the financial flow to the Republic of Cyprus can be 1 million Euros per month.

The Innovation Center in the Republic of Cyprus Project. A number of Russian manufacturers have very interesting innovations in their portfolio, but face difficulties and large financial costs to promote innovations in Western markets. Taking into account the location of the Corporation's headquarters on the territory of the Golf resort (monthly visit of 200-300 European businessmen to the resort), it is possible to organize a permanent exhibition of Russian innovations with subsequent negotiations of interested businessman in the headquarters of the Corporation.

The Center for Preventive Medicine, Healthy and Productive Longevity Project. The implementation of this project is justified by the uniqueness of the natural conditions of the Republic of Cyprus, the project is proposed for implementation by the shareholders of the company - representatives of the medical community.

The Althaea-Pharma Project. In 2018 in the territory of the Russian Federation the founders of the Infodrom PLC founded also the open Joint Stock Company "Althaea-Pharma" whose activities are planned in close cooperation with the Infodrom PLC;

Summary: a Positive reaction from the Republic of Cyprus to the projected activities of the Corporation can be a serious factor in strengthening ties between the Russian Federation and the Republic of Cyprus and accelerating the implementation of the Corporation's Projects.

During 2016, 2017, 2018 the company's management held more than 200 negotiations and received consent from 158 individuals and legal entities to participate in the projects of the Corporation in the mode of Option on Ordinary Shares of Infodrom PLC for which Preliminary Agreements were concluded or negotiated but the agreed payment for Agreements was not carried out until the exhaustion of the project 95% of the initial tranche of 100 million shares.

All this 158 Preliminary Agreements are to be re-signed to current Agreement form not later than 1/01/2020 with preservation of all parameters of the Preliminary Agreement and must be properly paid by Buyer.

The Agreements with number greater than 158 have no Preliminary Agreement.
